ABOUT

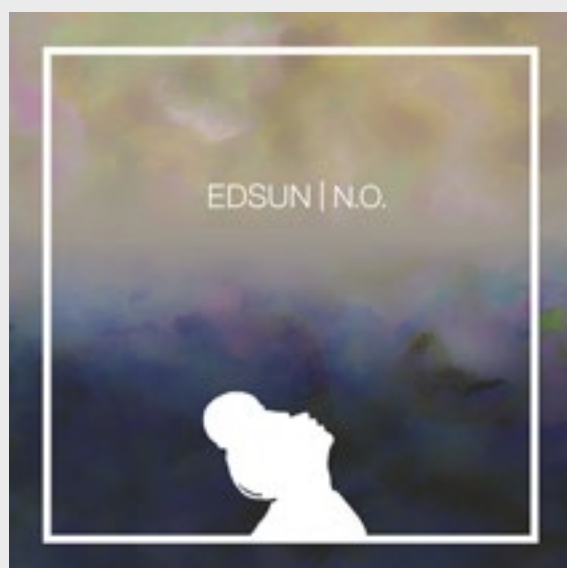

EDSUN, a young musician from Luxembourg, creates alternative R&B, smoothly laden with dark rhythmic beats. His musical style is unique to the Luxembourgish music scene and has been growing since the release of his debut EP "N.O.". Incorporating contemporary dance in his performances seems to make this young act intriguing and limitless. EDSUN's background consists in performing arts, in particular singing and dance, which he started at a very young age. Determined to pursue a career in the arts, EDSUN soon started appearing in innovative theatre productions taking place in Luxembourg's arts platforms. Having performed at the Sonic Visions Festival in Luxembourg's Rockhal or in London (Stratford circus) and in Paris (Silencio), this young artist is on the rise and is about to release new art in 2017.
