

MYDY RABYCAD

worldwide disarming live show

Energy, charm, happiness and sex-appeal. Lightness of syncopes combined with uncompromising beats. Insight and spontaneity, but also refined sophistication and professionalism. All this and much more certainly helped the young band Mydy Rabycad to get better over the last three years and to become one of the best concert bands on the scene and attract fans, agents and promoters, not only in Europe. One of the most successful bands on the Czech music scene is heading towards the world.

Dozens of concerts in clubs filled with enthusiastic audience of fans and sparkling atmosphere on stage. They experienced wider success in Great Britain, where they were performing at Glastonbury festival or they were headliners at Maui Wau festival! In Germany they received a warm welcome at the legendary Fusion Festival, main stage of the Oktoberfest opening ceremony and more. Two crowded shows at prestigious showcase festival Eurosonic in Groningen. Jazz in Seoul and Jazz in Daegu festivals in Korea. Their music had response in the site of college Radios across the USA, and their first US & Canada tour is scheduled for the summer this year. And a lot of big shows across the Czechia and Europe as well. Mydy Rabycad definitely have settled themselves on the music scene worldwide and their enthusiastic vigorous music floating across the borders of the genres is gifted by universality for all people and generations. Frontwoman, singer and lyricist Žofie Dařbujánová says :*"It was quite amazing to play for crowded venue in Bridport (UK), where PJ Harvey was born, or headline festival Maui Wau in Suffolk, (UK). We really enjoyed shows at Sziget, (HU) or in front of crowds at Nilüfer Müzik Festivali in Bursa (TR). It was unforgettable weekend, when we played on the same stage as Iggy Pop or the Kooks at Metronome Festival in Prague, just one night after our first set at Glastonbury. And we are looking forward to play in the US and Canada now! We are so happy, that we have so much amazing fans across the world, this would not be possible without any of them!"*

Once upon a time, in the middle of 2012, two friends from high school, Mikulas and Jan, decided to start a space expedition in their little spaceship. They knew they couldn't face all the hills and valleys that this journey would bring, so the boys decided to ask Jan's cousin Nèro - from a neighbouring planet with plenty of experience in electronic devices – to join their trip. Because of its high prestige and what an adventure this incredible journey would be, they succeeded in convincing Zofie, the queen of the red galaxy herself, to participate.

One of the first steps during their interstellar journey was to improve their skills and abilities. The boys combined their acoustic instruments with the powerful sound of electronic mixes and beats while Zofie started to conquer the solar systems with her voice. The result of this year long mashup led to a CD containing the infectious formula called Let Your Body Move, irresistible to dance to. This fellowship Mydy Rabycad made an alliance with the drummer Tomas and the guitarist Ondra to attend all the festivals. And the story continues to the second album Glamtronic and clubs and festival stages worldwide. Show must go on.
