

Lxandra is a 20-year-old singer-songwriter from a small island called Suomenlinna outside Helsinki, Finland. While living and working on her debut album in Berlin, a city when compared to her home-island of 800 residents, appears full of inspiration in every corner. Always eager to learn and grow as an artist, Lxandra honed her craft as a songwriter also for other artists, patiently waiting for the right tracks to launch her own project. After the successful release of her debut single „Flicker“ at the beginning of 2017 she follows up with an intimate piano ballad called „Hush Hush Baby“.

After returning to her childhood home, the small Finnish island, for her mother's birthday Lxandra decided to write a song as a birthday present. With no studio access and only limited time Lxandra recorded a one-take demo of “Hush Hush Baby”. Only couple months later she is releasing the produced version of the song which still contains the intimate and emotional one take vocal recording. ““Hush Hush Baby” is a love song to my mother”, Lxandra says, "and it felt like the right track to follow up on “Flicker” as it means a lot to me personally.” After showcasing the artistic side of Lxandra with her first release the second single puts her astonishing and powerful voice in spotlight. More singles will be release over the course of next year and accompanied by several live shows and ultimately leading up to an album release end of 2018.

#### **Music Releases:**

<u>Flicker</u>	22nd February	Independent
<u>Hush Hush Baby</u>	5th July	Independent

#### **Videos Releases:**

<u>Flicker</u>	30th March	Independent
