## FINNISH POP-PHENOMENON ISAC ELLIOT RELEASES HIS NEW SINGLE “I WROTE A SONG FOR YOU”

Today, Finnish pop-phenomenon **Isac Elliot** releases his new single “**I Wrote a Song for You**”. The beautiful personal ballad, which showcases Isac’s incredible vocals, marks the third release from the singer’s **FAITH** series. “**I Wrote a Song for You**,” co-written by **Ali Tamposi** (DJ Snake ft. Justin Bieber “Let Me Love You,” Kygo & Selena Gomez “It Ain’t Me,” Camila Cabello ft. Young Thug “Havana”), is now available across all digital service providers.

*“During my career I’ve recorded a lot of great songs but ‘I Wrote a Song for You’ felt different from the start. When a song like this comes to life, you can right away feel that something special is happening. You can sense it when the song is being written, recorded and worked on – everyone involved in the making of the track knew that there was something special going on. The whole team felt it. You don’t have to explain the song to anyone; it speaks for itself. The words, the melody, the feeling of it all...”* **Isac Elliot** says on the track.

**Isac Elliot’s FAITH** is a set of five amazing new singles that include already released songs “**AYO**” and “**EYES SHUT.**”

A video has also been made for *I Wrote a Song for You*, shot in the stunning landscapes of the Norwegian fjords. The video will be released on Monday 20 November.
