

WARSAW VILLAGE BAND

Warsaw Village Band is an icon of the original Eastern European music which combines tradition with modern elements, and unites thrilled audiences of both punk rock and classical music alike. Launched in 1997, the group fast became the most successful Polish ensemble worldwide, with the prestigious BBC Radio 3 Newcomer World Music Award, four Fryderyki Awards (Polish Grammy) and over 500 shows in more than 30 countries. Despite the archaic "white voice" vocal technique and the use of traditional instruments like violin, hammered dulcimer or XVI century Polish fiddle, each of the band's studio albums is full of avant-garde experiments and unique fusions. New album of the group including Mazovian rootz musicians will be out on 16.12.2017
